## INTRODUCTION

Savage Logistic Solutions LLC, is a SDVOSB (Service-Disabled Veteran Owned Small Business) that specialize in LTL (Less than a Load) freight of all kinds. We primarily consist of a NON-CDL fleet which enables us to be a more competitive carrier in the expedited, OTR, and final mile space. Our fleet has the ability to go further for longer while still staying compliant with FMCSA regulations. Leveraging our Non-CDL fleet model, we can readily hire more drivers enabling us to scale much faster "Any-time... Anywhere!" Finally, we have members with prior secret clearance that can be qualified to handle sensitive cargo for unique operations requiring white glove service.

## CAPABILITY STATEMENT

We can secure/transport palletized/non-palletized cargo up to 10Klbs with a liftgate working capacity up to 3klbs. Next, we can transport cargo up to 1.2K miles maximum one way daily to 7.2K miles maximum per week. We are mobile, capable, and have the ability to access federal installations in any US continental territory. Finally, we are positioned to scale in any one location for long term opportunities.
